

Brandon and Kelli Claussen
2626 29th Street

Built in 1948, this three bedroom/two bath home is full of old charm and a dreamy front porch. The Claussens, with their three kids, moved here in July 2018 ready to fill it with all their traditions from families past. Margaret Gafford, whose home is also on the tour this year, and who had wistfully driven by this beautiful house for years, fulfilled her long-time dream by buying the house in 2017. She and her daughter enjoyed their flipping adventure together by refreshing and remodeling this home to what you see today. The two almost totally gutted the house to refurbish the kitchen, all the plumbing, the floors, front porch, and the back yard with designer, quality fixtures and hardware.

Now, the Claussens have carried on the traditions of family by sharing their Christmas collections of trees, Nativity scenes, autographed baseballs, and 12 Days of Christmas wooden figures once collected or actually made by their fathers and grandfathers. This home speaks love and family.
